Choices

Nobody, parent or child, likes to feel out of control of their lives. Love and Logic teaches that wise parents give their children lots of choices on small issues when they are young. This allows the parents to build up a “savings account” of control so that they are more likely to receive cooperation when they need to make a “withdrawal” on a big issue. Read the attached article for more tips on this useful technique!

Friday, April 6

Love and Logicism

“Wise parents know that NOT getting one’s way from time to time is actually good practice for life! Children who are always protected from being upset become always upset adults.”
